BIO-ORGANIC

SIVIERO MARIA is a Gelato range made with

100% ORGANIC INGREDIENTS

packed in an innovative and exclusive

100% COMPOSTABLE TUB.

A unique product, made with Italian fresh whole milk and cream.

AROMAS FREE - COLORINGS FREE
THICKENERS FREE - EMULSIFIERS FREE - GMO FREE
GLUTEN FREE

BIO CERTIFIED

WE MADE OUR COMMITMENT TO THE ENVIRONMENT AN INTEGRAL PART OF OUR MISSION

This exclusive and innovative tub is made from bagasse sugarcane, an environmentally sustainable solution for food packaging.

WHO: We are committed to finding packaging and product innovations that create mutual benefit for both consumers and planet.

WHEN: We were the first to use this innovative packaging in 2017.

WHAT IT IS: Bagasse is the sugarcane fiber waste left after juice extraction.

WHY: Bagasse is a tree-free, renewable resource, 100% biodegradable and compostable. Bagasse-based products normally biodegrade within 90 days.

WHERE (to dispose of): tub and lid could be disposed of as organic waste (producing Biogas energy and compost) and as paper (for new cellulose fiber).

ART. 8271
